

Suitcase Fusion

Professional font management for Macintosh

Suitcase Fusion is the next-generation professional font manager and the only one to provide the industrial-strength features to ensure hassle-free, reliable font management no matter how many fonts you use, how many documents you work with or how demanding your workflow.

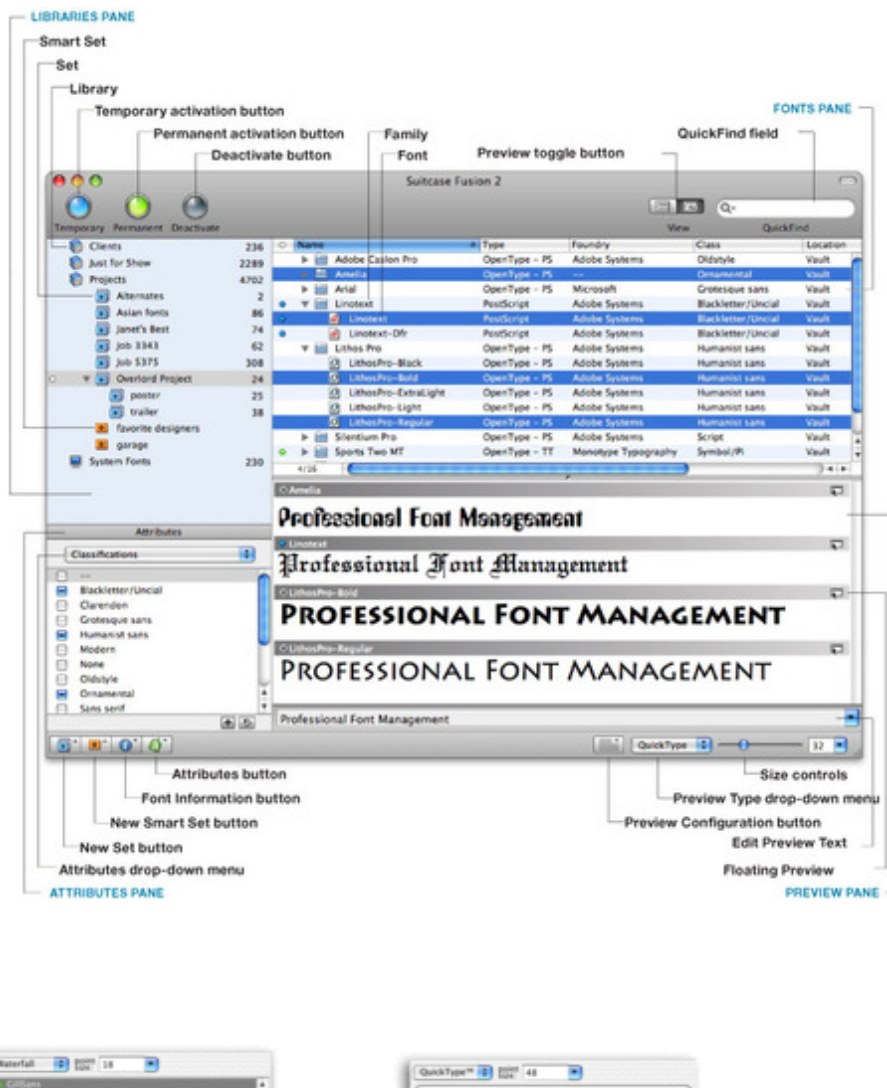

Top Reasons Why You Need Suitcase Fusion

- Eliminate the guesswork in working with fonts
- Ensure that you have the exact version of the font you need. See information on Font Sense™ and auto-activation
- Eliminate unnecessary font conflicts
- Avoid potential font wrecks (missing fonts, corrupt fonts, etc.)
- Stop duplicate font issues from interrupting your workflow
- Achieve reliable, stable and hassle-free font management

more features

- Web font Enabled with WebINK®
- “Find Similar Fonts” with QuickMatch
- Precise font auto-activation in every major creative application
- Font Vault repository for unmatched organization, sorting and searching
- Type face separation for pinpoint font selection and activation
- Collect fonts for output; convenient drag-and-drop exporting
